MESSAGE FROM OUR DIRECTOR

"With our experience, technical excellence, and innovative solutions, we realize projects that convince our customers & are beneficial to society."

"At Foster, We live out our mission every day: to provide our clients the best construction & Contracting services available while maintaining the highest level of quality, safety & control.

Be confident that our commitment to providing you with the highest quality service and construction product will never change. Thank you for allowing us to help make improvements to your facilities, processes, and places of business."

”
Our continued success is attributed to the hard work, skill and dedication of our Team.

CONSTRUCTION PRODUCTION PROFILE

An Advance Multifaceted Contracting Company Capturing the Needs of the Moment.

Foster is a Construction and Trading Company established in Baku, Azerbaijan. We provide general contracting, Supply chain management, Air & Acoustic Engineering, Project management and maintenance services, to deliver a first-class experience for our clients across Building, Roads and O&G Sectors.

We are one of the very few service providers, in the field of Air & Acoustic Engineering in Azerbaijan.

Our recent Business partnership with Seagull HVAC Industry, UAE, has put us in a league of our own, as a Solution provider for Clean air, noise and vibration problems in industrial and residential projects. Our services include building inspection, reporting, design & engineering, production of tailored products and installation. Our objective is to provide our Clients with a comprehensive range of quality products & services.

Foster APC MMC Partners with Seagull HVAC Industry LLC for Air & Acoustic Services & material.

The undeniable role of construction projects in the economic development of our country is obvious, though this revolution in construction sector poses new threats to environment, therefore, companies are emphasizing more and more on Indoor Air quality & acoustically treated system for environment friendly construction.

Keeping these challenges in mind, we at Foster APC MMC, recently joined hands with Seagull HVAC Industry, a UAE based company, with its branches in Saudi Arabia, Qatar and Oman, is one of the highly reputed companies for supplying Air & Acoustic (noise & Vibration) solutions across the globe.

In this regard, we are reaching out to offer our services, in the field of Air, Acoustic & MEP, to contribute towards success of your ongoing Projects.

OUR PORTFOLIO

Our services include management of all processes of project with the use of advanced technical solutions in planning, materials supply and installation.

Our services take you from collaborative planning sessions through move-in day. It all starts with listening to your goals, needs, and objectives. We then tailor our services to match whatever is necessary to deliver what matters to you.

01

GENERAL CONTRACTING

Our general contracting services help ensure that your project moves forward as smoothly as possible, from pre-construction to finish.

02

SUPPLY CHAIN MANAGEMENT SERVICES

we are a specialized multi disciplined procurement and supply chain company, delivering a complete single source procurement solution to our customers worldwide.

03

AIR & ACOUSTIC ENGINEERING SERVICES

Our international Air & Acoustic design team provides services in architectural, building, transport and environmental.

OUR PORTFOLIO...

04

PROJECT MANAGEMENT SERVICES

Our team utilizes CPM practices during execution of the project and are experienced in all types of project controls, fixed price, TOC, TCM dependent on the structure and duration.

05

MAINTENANCE SERVICES

Our full service approach encompasses preventive & corrective maintenance services, across O&G and construction sector.

06

TESTING & COMMISSIONING SERVICES

Foster prides itself in providing Diagnostic testing, condition monitoring & assessment services for various MEP and HVAC equipment.

07

FIT-OUT WORKS

we work closely with Clients & Design team to provide an unparalleled experience through attention to detail & commitment to highest standards of work.

We have a highly qualified team of professionals having experience and expertise in Engineering, Procurement and Construction Management to handle every project with innovative project intelligence approaches to outperform.

OUR SERVICES

Air & Acoustic

Our international acoustic design team provides services in architectural, building, transport and environmental acoustics. We help clients achieve their aspirations in acoustics by guiding projects from conception and planning through design, construction, testing and commissioning.

01

Air & Acoustic Engineering

We provides exceptional building Air & Acoustics design, comprehensive environmental noise & vibration monitoring and control, thorough measurements and detailed analysis .

02

Acoustic Inspection

We offer inspection services for noise breakout in buildings through ducts & walls. Our reports will include recommendations for attenuation requirements & other practical solutions.

03

Certification

As an acoustic consultant we offer certification services for Residential & Industrial noise, architectural acoustic, residential buildings soundproofing or acoustic tests & Environmental impact noise modelling.

OUR SERVICES

Air & Acoustic

04

Production

We offer a wide range of Air distribution & Acoustic related products, i.e. Attenuators, Acoustic Louvers, Acoustic Doors, Acoustic Wall panels, VAVs, Air Curtains, Air Diffusers, Dampers, Ductwork, etc.

05

Installation Services

Our team of skilled professionals, equipped with cutting-edge technology & industry knowledge, ensures the highest standards of quality & efficiency on every Air & Acoustic project we undertake.

06

Testing and Commissioning

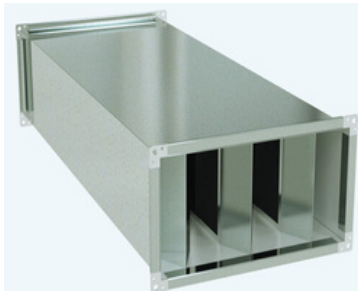

We offer our services for testing & commissioning of all kind of Acoustic (HVAC & Architectural) and Air (control & distribution) equipment. Our team of skilled specialists make sure the equipment operation is in line with Client's vision.

Our engineering consultants can support your project from conception and planning through design, construction, and testing. We have experience in development, energy, and education industries and can offer our services independently or seamlessly integrated into a multidiscipline team.

OUR PRODUCTS

Air & Acoustic

Through our collaboration with Seagull HVAC Industry, we offer range of Air & Acoustic related products.

Attenuators

Our products include Rectangular and round sound attenuators, which are used to reduce noise in domestic, commercial and industrial applications.

Fire Rated Attenuators

We also offer full range of Fire rated Rectangular & Round Sound attenuators, for applications, where safety is of highest priority.

VAV Units

Noise attenuation is a critical component of a successful building environment & our air volume terminal units offer the quietest performance available.

Fire Rated Ventilation Ductwork

Fire-rated ventilation ducts can avoid fire and heat spread between two compartments.

OUR PRODUCTS

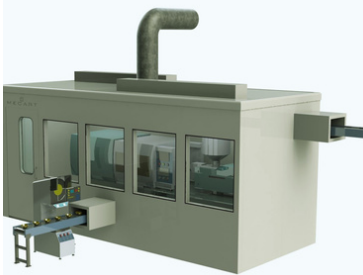

Acoustic Louvers

Louvres perform a variety of functions, including noise control, weathering, and visual screening. We offer a wide range of louvres, many of which combine several of these functions.

Volume Control Dampers

Our range of volume control dampers are designed to balance and control air flow through the ducts, walls and floors.

Acoustic Enclosures

We offer portable noise reduction solutions for a wide range of applications, for all industries.

Acoustic Doors

We are adept at solving issues relating to noise isolation and containment & we can custom design & manufacture doors to suit specific applications.

Acoustic Panels

Our Acoustical Wall Panels are the solution for areas that require noise reduction and are available in a variety of models for various applications.

OUR PRODUCTS

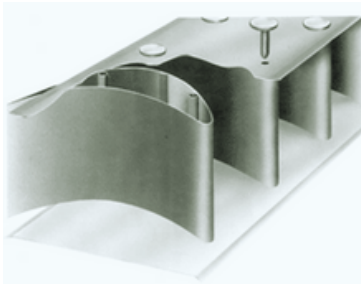

Rectangular Ducts

G.I. Rectangular ductwork for low, medium and high pressure classes.

Circular Ductwork

Spirally wound circular ductwork for low, medium and high pressure classes.

Vanes & Tracks

Our turning tracks, vanes and rail system provide easy means of securing HVAC turning vanes that direct airflow around mitered elbows in HVAC ducts.

Pre-insulated Ductwork

Our Pre-insulated ducts and fittings are designed for both indoor and outdoor applications.

Having grown the business from humble beginnings, our commitment to provide superior products and technical support, has enabled the firm to supply any ICI building project and grow into one of the most diverse Organization in Azerbaijan.

GET IN TOUCH WITH US

We are committed to building a sustainable future by fostering a collaborative spirit that creates exceptional experiences, balanced relationships, and community built environment.

We perform with a passion for excellence, while doing things the right way. Thanks for your interest in our company, please get in touch with us
