

# HSE POLICY

FOSTER APC Management has defined and documented the following commitment concerning the highest Safety, Health, and Environmental performance and to implement proper HSE controls within the organization.

In this regard, FOSTER APC has made the following commitment:

- To have work-related injuries and illnesses free Project and safe protection of the environment and the property
- To provide adequate control of the health and safety risks arising from our work activities.
- To provide adequate information, instruction, and supervision for the activities.
- Ensure to meet all safety, health, and environmental rules and regulations
- Ensure proper HSE management system that drives continual review and improvement.
- Achievement in pollution prevention, resource conservation, and environmental sustainability.
- For the improvement of HSE performance continuously, setting and meeting high HSE performance goals and Core Values.

FOSTER APC Management is firmly committed to this policy enabling all work activities to be carried out safely. The commitment provides the strong foundation for a safe workplace, operational excellence, and long-term business success.
